

HTML Page Type - Tutorial

 **HTML** - displays any type of content. "Edit HTML Page" provides a toolbox for adding and customizing various type of content. When creating or converting into HTML page an empty one is created.

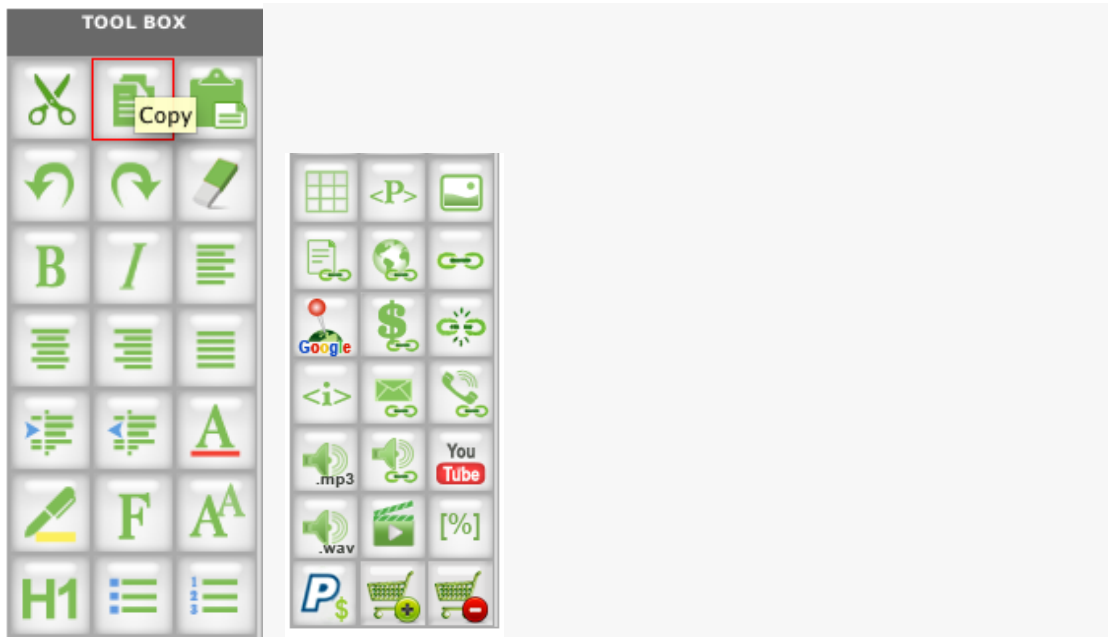

In order to add a new html type page to your app access its Dashboard. Then click the "+" (Add New Page) button. From the list of the page types available select the html one and click the "Create" button. Once the page is added, you are able to proceed with editing it.

New Page Name: .html HTML - displays any type of content, fully customizable.

New Page Type:

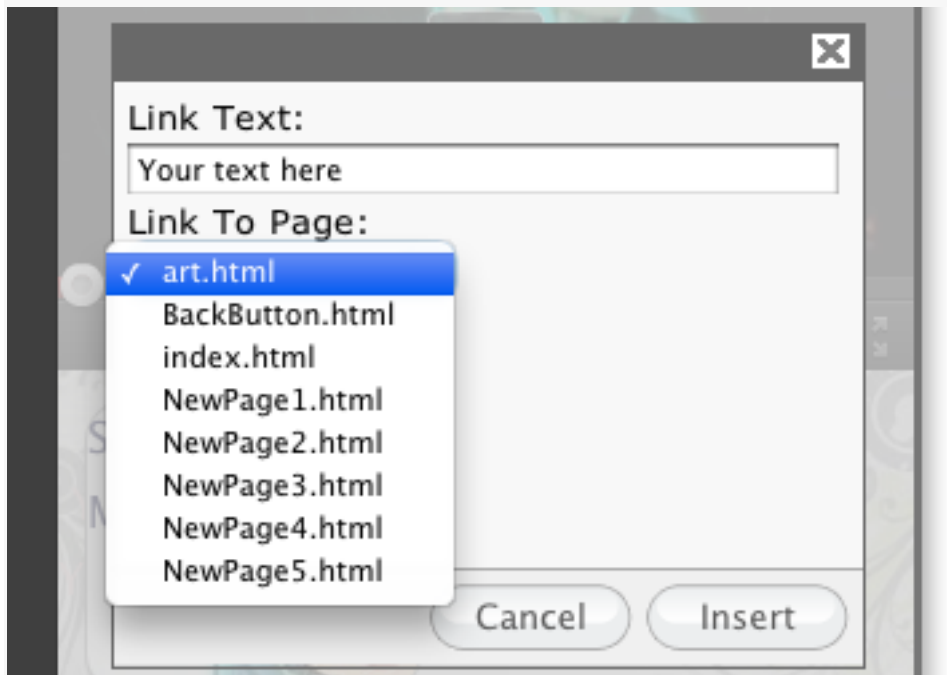

<input type="radio"/> HTML	<input type="radio"/> GLOBE	<input type="radio"/> MAP
<input type="radio"/> MENU	<input type="radio"/> NOTES	<input type="radio"/> LOC Finder
<input type="radio"/> RSS	<input type="radio"/> Facebook Fan Page	<input type="radio"/> Magazine MENU
<input type="radio"/> FORM	<input type="radio"/> ePub	<input type="radio"/> Stripes MENU
<input type="radio"/> MOBILE	<input type="radio"/> SMS	<input type="radio"/> Grid MENU
<input type="radio"/> FEEDBACK	<input type="radio"/> Login	<input type="radio"/> Button MENU
<input type="radio"/> NOTIFICATIONS	<input type="radio"/> Quiz Question	<input type="radio"/> CALENDAR
<input type="radio"/> PN TOPICS	<input type="radio"/> Quiz Feedback	<input type="radio"/> Email ATTACHMENT
<input type="radio"/> MOSAIC	<input type="radio"/> Shopping Cart	<input type="radio"/> Large Button MENU
<input type="radio"/> IMG MENU	<input type="radio"/> WebKit MENU	<input type="radio"/> Search
<input type="radio"/> Photo Effect	<input type="radio"/> WebKit SUBMENU	<input type="radio"/> Purchase
<input type="radio"/> Podcast	<input type="radio"/> WebKit DETAILS	<input type="radio"/> In-App Browser

On the left side of the editor you may find the tool bar giving you the option to edit the page the way you want it. Click on the iPhone's screen (the editor) and type in your text. You may leave it plain as a general information text, or you can easily make it interactive, by linking it to a local page, or an external link, or even insert a MailTo link or insert a Phone Link. As mentioned above, the html page displays any type of information. You are welcome to use your imagination and make the page look in the best way you wanted it to be.

Along with the text editing options, you may find here such options as inserting lists, tables, images, mp3 or wav files and many more.

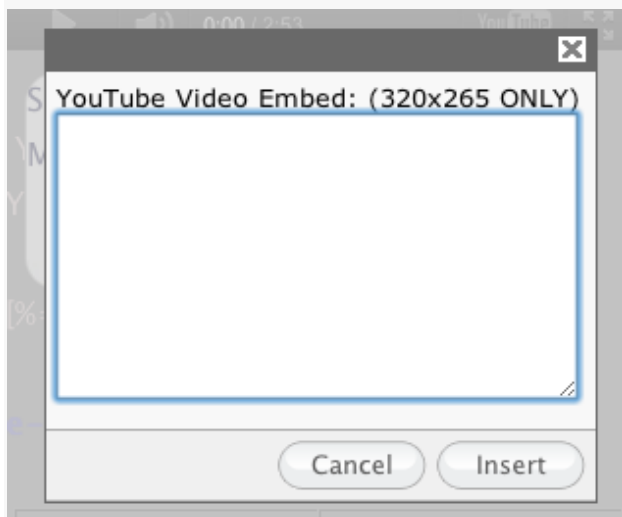

Example:

Highlight the text you want to link to a different local page, click on "Insert Internal Link". A pop-up window will appear giving you the option to type in the exact text to be linked and select the page you want to link it to.

Adding a YouTube video:

- 1) Click on "Add YouTube vide" button from the Tool Bar.
- 2) In the appeared pop-up window you need to copy/paste the embed code got from YouTube.

In order to make sure that the video will be displayed on the device, mark the check boxes below the embed code at youtube.com, same as shown on the screenshot below.

Embed

Top Banner: AdMob IAd None

Bottom Banner: AdMob IAd None

Transition: Slide Curl Flip None

Slide to Next Page:

Select a next page if you want to enable slide navigation. Slide Left will bring up next page. Slide right will go back.

In order to use your images, video files, etc., you need first to upload those to the resource manager of your app.

Resource Manager

 To start editing, click on iPhone surface and start typing. Select the text and press Delete or Backspace to erase it. Use the toolbox on the left to format the text, add links, insert pictures or media files.

Edit the page style by adding a background color or image.

[DRAG / MOVE Page Elements.](#)

To change PAGE STYLE click [HERE](#).

Here you are able to change the background image or color, text and tap color, etc.

Design style Pages

 **NewPage2.html**

Properties:

Background Image:	<input type="text" value="background2.jpg"/>	...
Background Color:	<input type="text"/>	...
Font Size:	<input type="text"/>	
Text Color:	<input type="text"/>	...
Tap Color:	<input type="text"/>	...
Text align:	<input type="text" value="Left"/>	⬆
Direction:	<input type="text" value="Left To Right"/>	⬆
Line height:	<input type="text"/>	
Link Color:	<input type="text"/>	...
Visited Color:	<input type="text"/>	...

Also, you may add here some custom buttons, images or layers. Simply click on "Drag / Move Page Elements" link.

Adding the Page elements you are also able to edit their functionality (see the 2 examples below 1- Image element / Image Properties, 2- Button element / Button Properties)
