1.1 Tax - Tax percentage applied per order

1.2 Pick up message - Your customer will receive this message if he will choose the pick up option for his order

1.3 Delivery message - Your customer will receive this message if he will choose the delivery option for his order

1.4 Delivery price - Price applied per delivered order

1.5 Free delivery from

2. Currency

Currency:

Euro(EUR)

Only USD is supported by Authorize.Net

From the Currency Drop-down you're able to change the Order page type Currency. This also will change the currency in the Product Order page.

****NOTE:** If you'll change the Currency from US Dollars (USD) you'll not be able to use the Credit Card (Authorize.Net) as payment system.

3. Merchant info

1 Merchant email:

The address used for order notifications

2 Payment methods:
2 Credit Card (Authorize.Net)
3 Cash
4 PayPal
Payment methods available for the user (default is Authorize.Net)

3.1 Merchant email - All orders will come on this email

3.2 Payment method Credit Card - Your customer will be able to pay for the order directly from the app via Credit Card. The Credit Card payment are processed by Authorize.net

1 Authorize.Net login id:

Part of Authorize.Net credentials

2 Authorize.Net transaction key:

Part of Authorize.Net credentials

3 Transaction description:

Credit card transaction description

3.2.1 Authorize.Net login ID

3.2.2 Authorize.Net transaction key

3.2.3 Transaction description - This name will be sent to Authorize.net and you'll be able to see from what app you've received this payment (on Authorize.net website). You may add here the app name.

****NOTE:** If you use Fraud protection in your [Authorize.Net](#) account you'll need to configure Authorized IP addresses to allow AppsZero server to work with your account. To do this go to *TOOLS -> Fraud Detection Suite -> Authorized AIM IP Addresses* and disable the filter. If you want to keep this filter enabled, please add AppsZero's server IP address **184.172.164.218** to IP Address List.

3.3 *Payment method Cash* - Your customer will be able to pay for the order when he'll receive it via Cash

3.4 *Payment method PayPal* - Your customer will be able to pay for the order directly from the app via PayPal.
