

AppShare Page Type Tutorial

Sharing is one of the most important function an application could have. AppsZero comes with the "App Share" feature that helps users to communicate about their app via E-mail or Facebook.

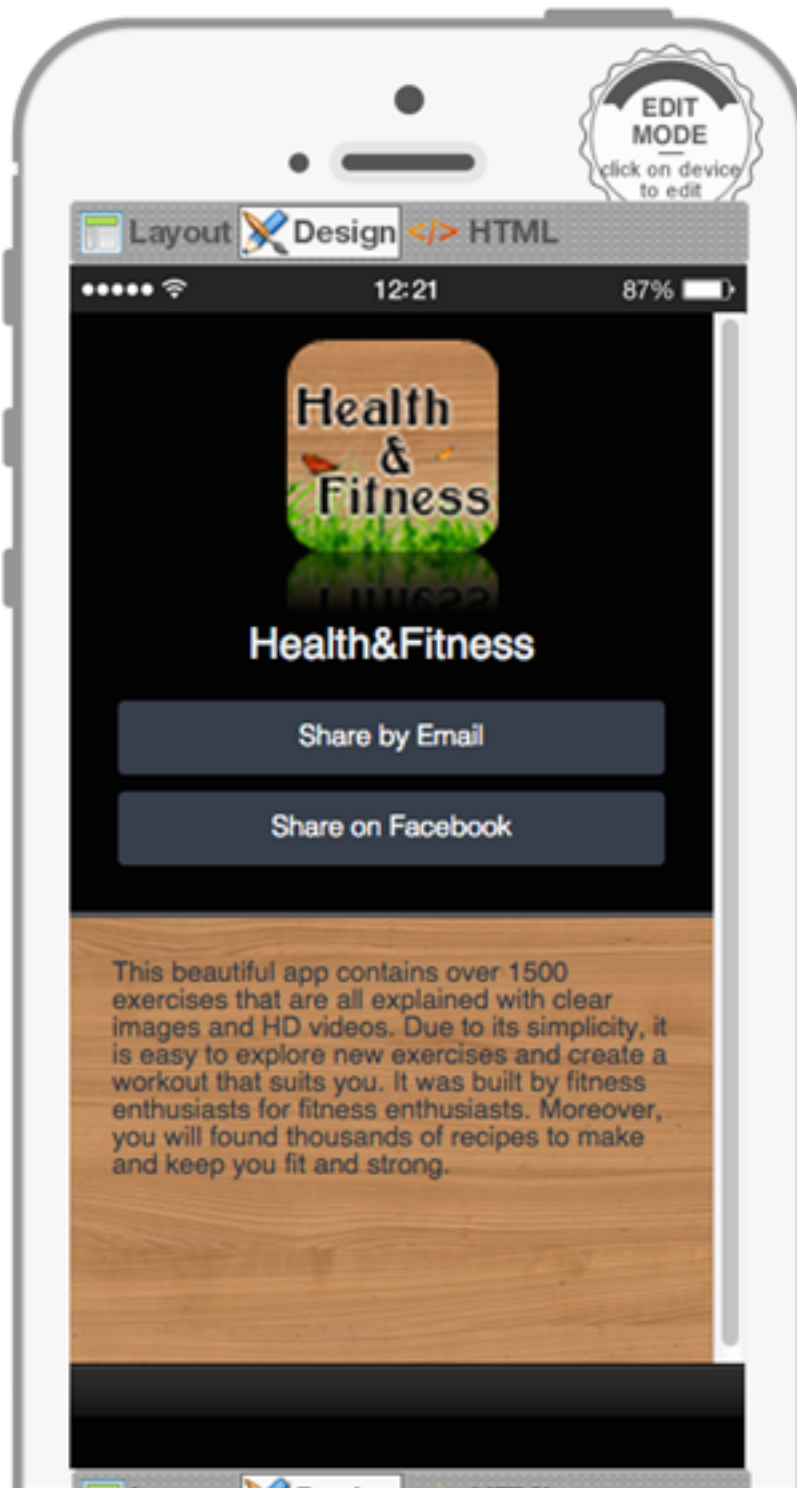

Benefits:

Sharing increases app's visibility:- Provides impressions in the Facebook News Feed - Sharing the app drives traffic and app installs

To add "App Share" page you need to access the Application's Dashboard and go to "Edit Pages" section. Click on Add Page button "+" to add a feature to your application. You will be redirected to the Marketplace where you may find different pages for the app. You may use search engine to find a specific features or sort by the "Pagetype categories", "Platforms" , "Authors" to find the appropriate one.

Once added you may go to Edit the page.

Page Properties

1. *App Name* - Enter the Application's Name
2. *Icon* - Select the application's icon with a maximum resolution of 100x100pixel

3. *App Description* - Add App Description that will be displayed on the page itself

4. *Share Description* - Add a short description of the app that will be shown in the E-mail or Facebook share message you will send.

5, 6, 7. *App Store/Google Play/ Kindle Fire* - Insert the links of the Application from the App Store: Google Play Store for Android App/ Apple App Store for iOS App/ Amazon App Store for Kindle App.

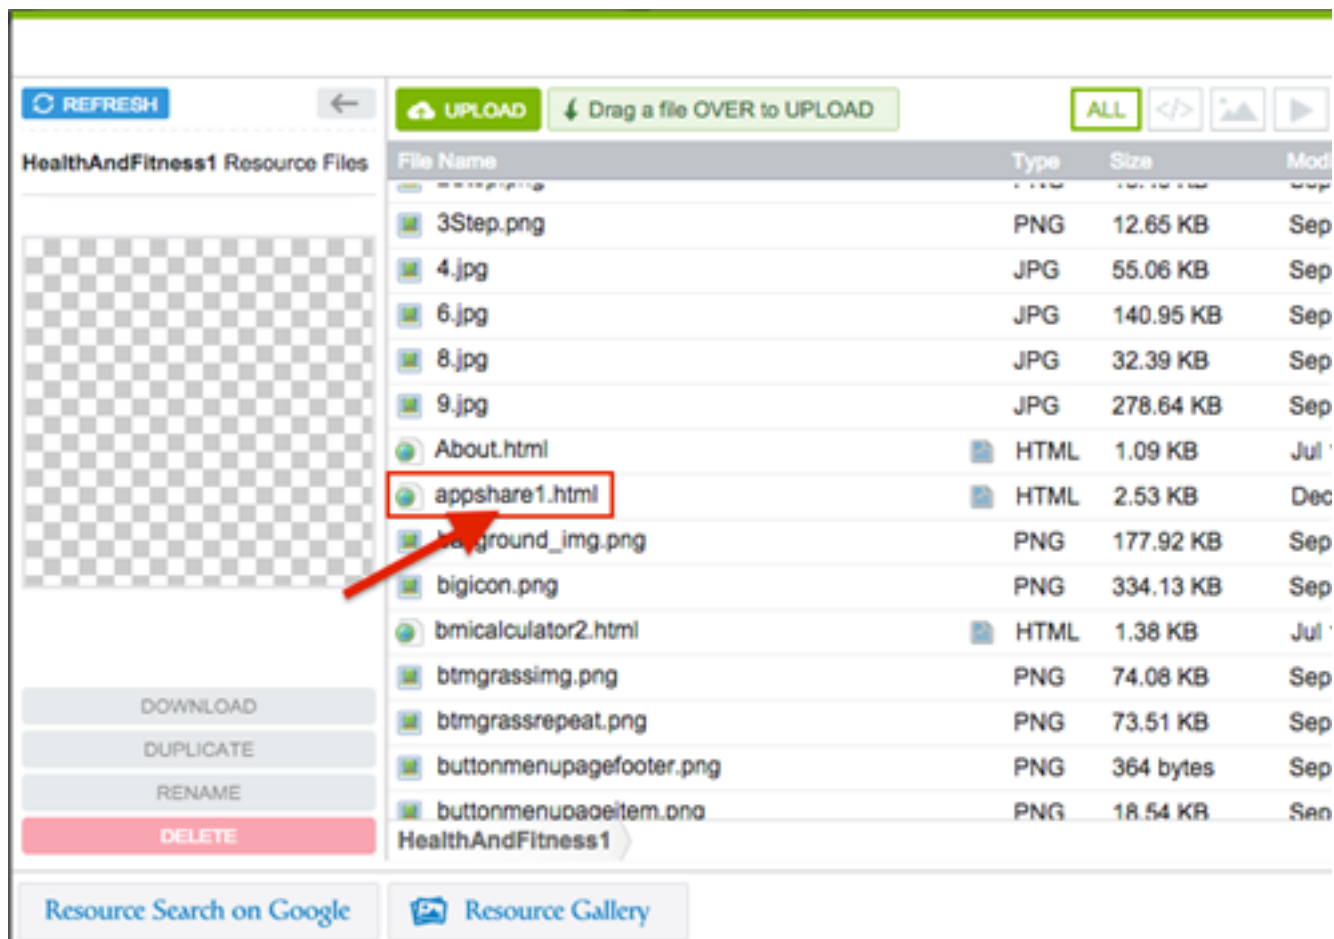

The screenshot shows the Google Play Store interface. The browser's address bar contains the URL <https://play.google.com/store/apps/details?id=com.appszero.appszero>, which is highlighted with a red box. A red arrow points from this box to the 'AppsZero' app icon on the page. The app page displays the app's name, developer 'Global Appz Company', and an 'Install' button. A message indicates that the user does not have any devices. The app is rated with two stars.

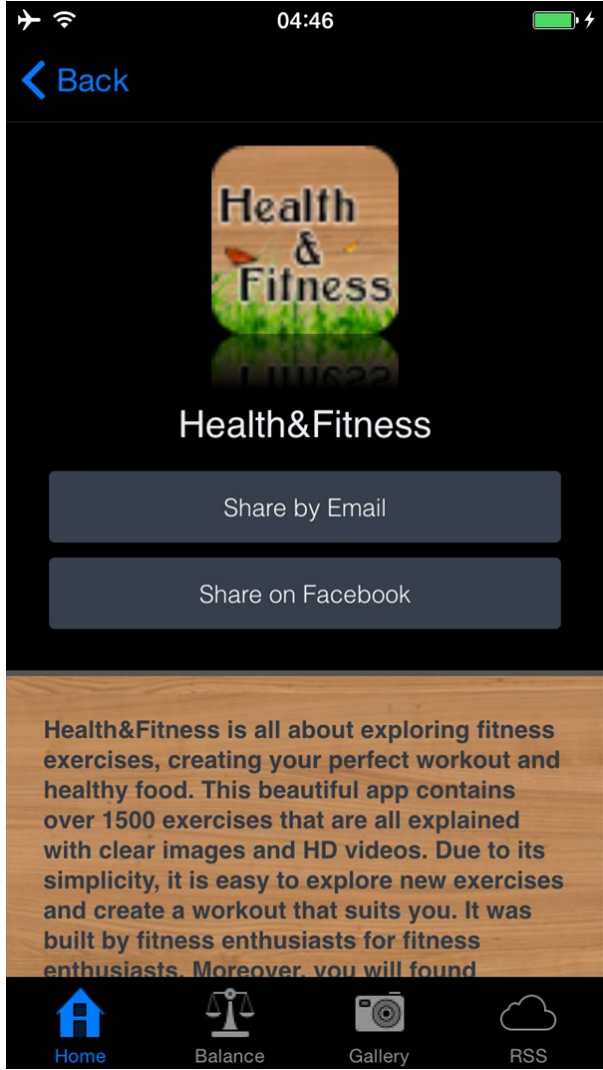

The screenshot shows the Amazon.com product page for 'AppsZero'. The browser's address bar contains the URL www.amazon.com/gp/product/B00XAG8Q8Y, highlighted with a red box. A red arrow points from this box to the app's image on the page. The page shows the Amazon logo, navigation links, and the product title 'AppsZero'.

This block provides a detailed view of the Amazon.com product page for 'AppsZero'. On the left is a large teal image of the app's icon, which features the letters 'AZ' in a white rounded square. Below the icon, the text reads 'AppsZero' and 'Build Apps - Zero Coding'. To the right of the image, the product title 'AppsZero' is displayed, followed by 'by Global Apps'. The page indicates the app is 'Rated: All Ages' and provides a link to 'Be the first to review this item'. The price is listed as 'FREE Price inclusive of VAT if applicable.' and the seller is 'Amazon Digital Services, Inc.'. A green banner at the bottom of the product information states 'Available instantly'.

You need to have **sync enabled** for the App Share page in the Resource Manager to be able to add the corresponding links once the application will be live on the Store.

The results of using App Share page type looks in this way:

04:47
